# GION TABLE

The ribbed wooden structure of the base of Gion table is inspired by an architectural feature of tea-houses found in the streets of Gion in Kyoto. The ordered arrangement of wooden ribs contrasts nicely with the more random arrangement of stones which comprise the terrazzo top.

MATERIAL : solid oak, terrazzo (nougat / warm grey), marble (bianco carrara / nero perlato) or travertine

gion console 140 : light oak

gion console 140 : warm grey
