HOVER BENCH

The finely-crafted sled legs of this bench mirror those of the Hover dining table. The seat comes as two smoothly rounded-off planks of solid oak, or a variation in form with upholstered panels, anchored on the ends with wooden plugs. As with most designs by Patryk Koca it is a chorus of barely-noticed subtle details, simplicity and thoughtful proportions, which create something beautiful and timeless.

MATERIAL : Solid oak, high density foam. Wood seat version also available.

DESIGN : Wooden Stories
